About Symposium

BUHS-2023 Meeting is where professionals meet to share ideas and advance scientific and technical knowledge. By attracting hundreds of professionals, the meeting provides excellent opportunities for sharing your passion for dairying, connecting with the scientific society, and advancing your career in this ever-changing global economy. This event is anticipating attendees all over the country come together to collaborate and network.

The aim of BUHS-2023 is to bring together experts in Life and nature, surveying, veterinary research, dairy sciences, food and nutrition, animal health, animal life care and various topics related to

udder health. BUHS-2023 is a great opportunity to learn about the most recent developments and to exchange views on the future directions in bovine udder health research, applications and services.
