

# THE ARTISTRY HUB - UVAS

University of Veterinary & Animal Sciences, Lahore

## Event Report

Team The Artistry Hub organized an event "THE ART LEGACY" based on the traditional form of art "TRUCK ART". The purpose of this event was to provide the platform to those medicos who are still having some interest for arts and can spare their time for arts even after having such a tough routine in UVAS, Lahore.

The Event was having three main segments:

- **Hands on Practice Session**
- **Exhibition**
- **Workshop**

During the Practice session we guided the students and provided them full material to do truck art in whatever way they want to. Moreover, we also gave them an option to submit their work and we selected top three submissions from the competition. This session continued for two days from 27<sup>th</sup> to 28<sup>th</sup> September, 2018. We got more than 80 articles for the exhibition day.

After this we had the event day on 4<sup>th</sup> of October where there was an exhibition of these all articles and a workshop where three speakers from National College of Arts (NCA) came and entertained the students through their knowledge of arts.

It went a successful event Alhamdulillah. Almost 20 items were sell. There were Chinese delegates who visited our stalls and they also took some of the articles which they wanted to take. Exhibition was inaugurated by them and then they took a round of the whole exhibition, made some pictures with photo booth and then they moved towards the auditorium. They were much pleased to see such a talent in medicos. Many of the Articles were gifted to faculty members as our team wanted to give UVAS some of their artworks.

# THE ARTISTRY HUB - UVAS

University of Veterinary & Animal Sciences, Lahore

Team [The Artistry Hub - UVAS](#) behind all the efforts for making this event named, The Art Legacy successful which is totally based on the traditional form of art, Truck Art.
