VICE CHANCELLOR'S MESSAGE

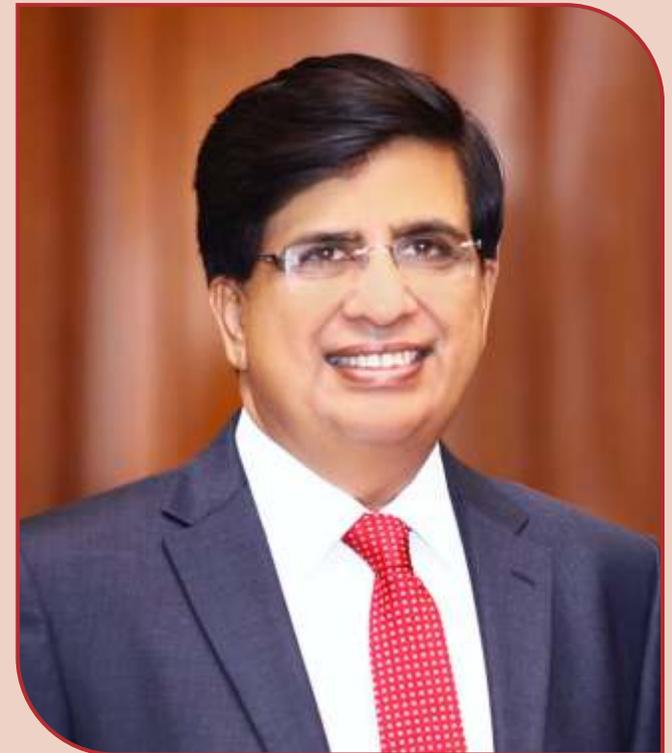

UVAS is a historical institution having a glorious history of 135 years which now comprised of 6 campuses. There are five faculties, three institutes, two constituent colleges at Jhang and Narowal, one para veterinary school at Layyah, one Avian Research & Training Center at Ferozepur Road Lahore. Besides that there are ten institutes at Attock, Rawalpindi, Sheikhpura, Okara, Lahore and Sahiwal affiliated with UVAS. Currently, UVAS offers 77 degree programs including 23 undergraduate degree programs, 30 MPhil programs, 24 PhD programs and 03 diploma courses. UVAS has been an institute of top choice for students. UVAS has remained a flagship institution for livestock, dairy, poultry, and other allied sectors. The UVAS has been rated among top 300-350 universities of Asia by QS- World Universities Ranking and is rated among top 10 universities by Higher Education Commission (HEC) of Pakistan. We at the UVAS are determined to continue aiding the livestock industry, pharmaceutical industry, food industry and business organizations by identifying the problems and providing them solutions through applied research.

The UVAS scientists are busy in managing over 90 research projects of paramount economic significance worth of Rs. 1,050 million. We have over 80 MoU (Memorandum of Understanding) with different national and international industrial stakeholders to build mutual capacities. The University is quite cognizant of importance of skilled human resource, research, policy framework, knowledge sharing, food safety, and food security of the Country and hence managing programs to cater the needs of various sub-sectors of livestock and food. Office of Research, Innovation, and Commercialization (ORIC) and Business Incubation Center (BIC) at the university have been working on paradigm shift of students and helping in grooming its graduates to become successful entrepreneurs. The industrial linkages of the university have helped its research products to be commercialized for socio-economic benefit of the society.

I extend my gratitude to all our public, private, and international collaborators for their trust in us and their support in addressing the national needs. We are optimistic that the UVAS will keep on serving as a catalyst for sustainable economic development of Pakistan.

Long Live Pakistan.

Meritorious Prof. Dr. Talat Naseer Pasha, S./
Vice Chancellor

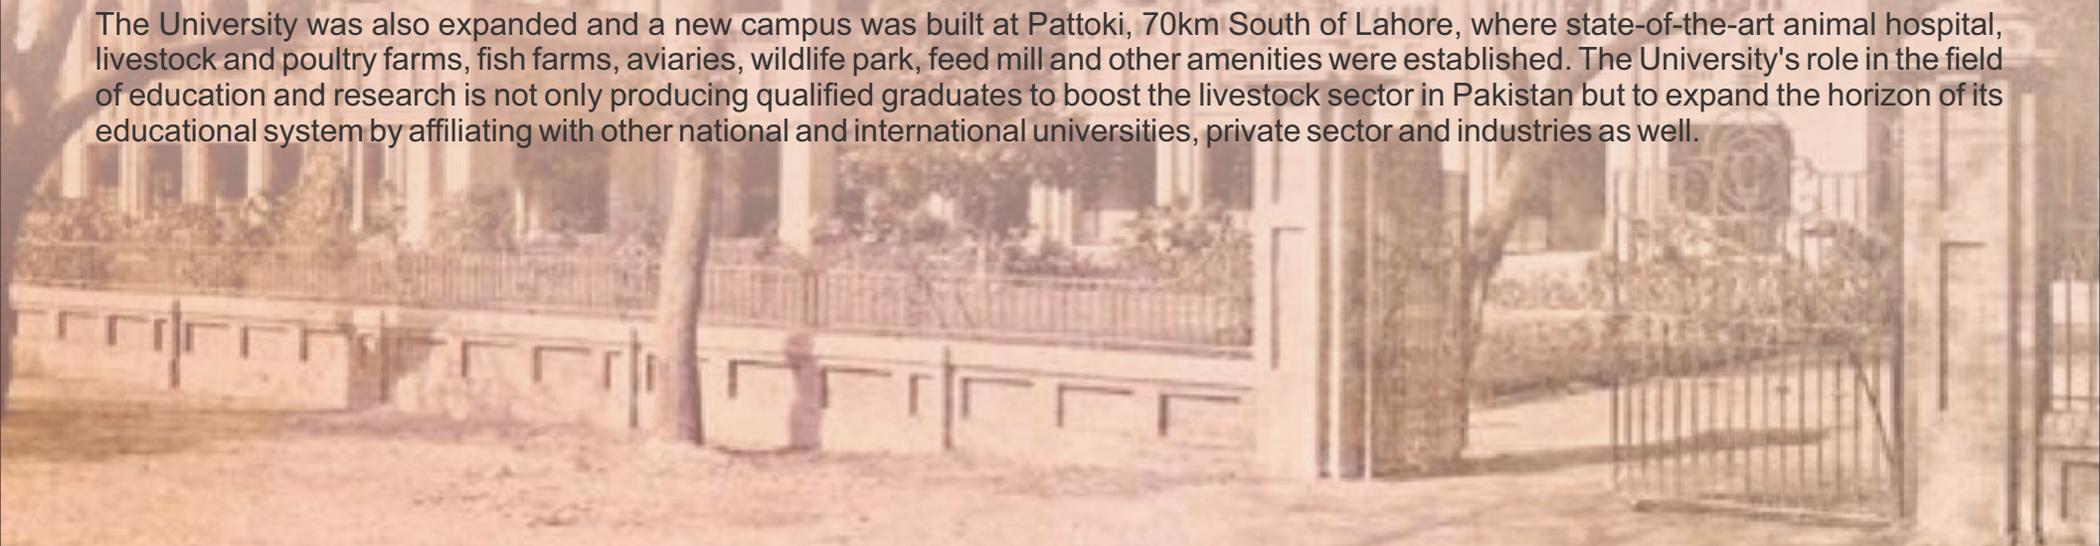

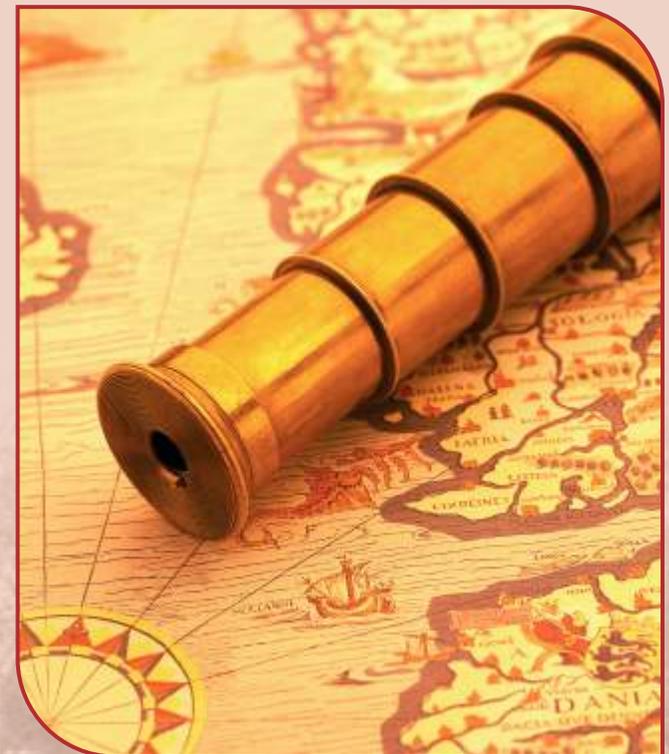

HISTORY OF UVAS

With the history of more than 135 years, University of Veterinary and Animal Sciences is one of the oldest and most prestigious Veterinary institutions of Asia. Its history dates back to 1882 when it was known as the Veterinary School and since then it is serving animal health and food safety needs for our country. Near the turn of the nineteenth century, the school was up raised to the status of Punjab Veterinary College. From there onwards, the names were changed quite often, based on the changes in the curriculum of the veterinary Education till 2002 when the institution was known worldwide as the College of Veterinary Sciences.

In 1954 the name of the college was changed to the Punjab College of Animal Husbandry, and title of the degree was changed to B.Sc. (A.H.) In the year 1959, the syllabus was revised and the duration of the course was increased to five years. Realizing the role of livestock in national economy, the government upgraded the College of Veterinary Sciences to University of Veterinary and Animal Sciences in 2002 with a mandate to act as a hub for generating skilled manpower in the field of veterinary sciences.

The University was also expanded and a new campus was built at Pattoki, 70km South of Lahore, where state-of-the-art animal hospital, livestock and poultry farms, fish farms, aviaries, wildlife park, feed mill and other amenities were established. The University's role in the field of education and research is not only producing qualified graduates to boost the livestock sector in Pakistan but to expand the horizon of its educational system by affiliating with other national and international universities, private sector and industries as well.

ACADEMICS

- Dean, Faculty of Veterinary Science
- Dean, Faculty of Bio-Sciences
- Dean, Faculty of Animal Production and Technology
- Dean, Faculty of Fisheries and Wildlife
- Dean, Faculty of Life Sciences Business Management
- Director, Institute of Pharmaceutical Sciences
- Director, Institute of Biochemistry and Biotechnology
- Director, Institute of Continuing Education & Extension
- Director, Advanced Studies
- Principal, College of Veterinary & Animal Sciences Jhang
- Principal, Khan Bahdar Chaudhary Mushtaq Ahmad College of Veterinary & Animal Sciences Narowal
- Principal, Para-Veterinary Institute Layyah
- Chairman, Center for Educational Policy and Administration
- Chairman, Center for Applied Policy Research in Livestock

ADMINISTRATION

- Registrar
- Controller of Examinations
- Treasurer
- Director, Quality Enhancement Cell
- Director, External Linkages
- Director, Planning and Development
- Director, Information Technology
- Director, Business Incubation Center
- Project Director, Building and Works
- Principal Officer, Student Affairs
- Hall Warden

RESEARCH

- Director, Office of Research, Innovation and Commercialization (ORIC)

SERVICES

- Director, University Diagnostic Laboratory
- Director, Quality Operation Lab
- Director, Office of University Advancement & Financial Aid
- Officer Incharge, Pet Centre
- Incharge, UVAS 24/7 Extension Service
- President, Alumni Association

**FACULTY OF
VETERINARY SCIENCE**

WE NOT ONLY TREAT
ANIMALS,
IN FACT WE **LOVE THEM**

We have a legacy of more than 135 years of excellence in veterinary education

Our mission is to provide quality educational experiences, delivery of outstanding professional services related to Veterinary and Animal Sciences and reshaping the economy of the society through objective-oriented research. We also assist students in obtaining an essential knowledge base to develop the necessary communication, quantitative and problem solving skills to integrate and apply this knowledge, and to instill appropriate attitudes and abilities required for life-long learning.

**Departments:**

- Microbiology
- Pathology
- Parasitology
- Clinical Medicine & Surgery
- Theriogenology
- Epidemiology & Public Health

**Degree Programs
Under-Graduate**

- Doctor of Veterinary Medicine (DVM)
- B.S. (Hons.) Applied Microbiology

Postgraduate (MPhil/PhD)

- Microbiology
- Pathology
- Clinical Medicine
- Epidemiology & Public Health
- Parasitology
- Theriogenology
- Veterinary Surgery
- Small Animal Clinical Practice

**FACULTY OF
BIO SCIENCES**

EXPERIMENTING
FOR THE
BETTERMENT
OF
LIVING BEINGS

We are committed in providing excellence in the Life Sciences education and related emerging disciplines to prepare highly skilled leaders and innovators. Therefore, we strive for the innovations

Our mission is to educate and nurture the students, to spread knowledge, and to provide services to the society and conduct research and creative activities for the benefit of the mankind. Our degree programs reflect the needs of future employers, making your career ready with up-to-date knowledge and recognized methods.

Degree Programs Under-Graduate

- Doctor of Pharmacy (Pharm-D)
- Doctor of Nutrition & Dietetics
- B.S. (Hons.) Environmental Sciences
- B.S. (Hons.) Biotechnology
- B.S. (Hons.) Biochemistry
- B.S. (Hons.) Biological Sciences
- B.S. (Hons.) Food Science & Technology

M.Sc. (Two Years) Programs

- Biochemistry
- Chemistry
- Biotechnology

Postgraduate (MPhil/PhD)

- Physiology
- Pharmacology & Toxicology
- Food & Nutrition
- Bioinformatics
- Biochemistry
- Anatomy & Histology
- Pharmaceutics
- Molecular Biology & Biotechnology
- Food Safety and Control
- Pharmaceutical Chemistry
- Forensic Sciences
- Environmental Sciences

Institutes:

- Institute of Biochemistry & Biotechnology
- Institute of Pharmaceutical Sciences

Departments:

- Anatomy & Histology
- Pharmacology & Toxicology
- Physiology
- Social Sciences
- Environmental Sciences
- Food Science & Human Nutrition

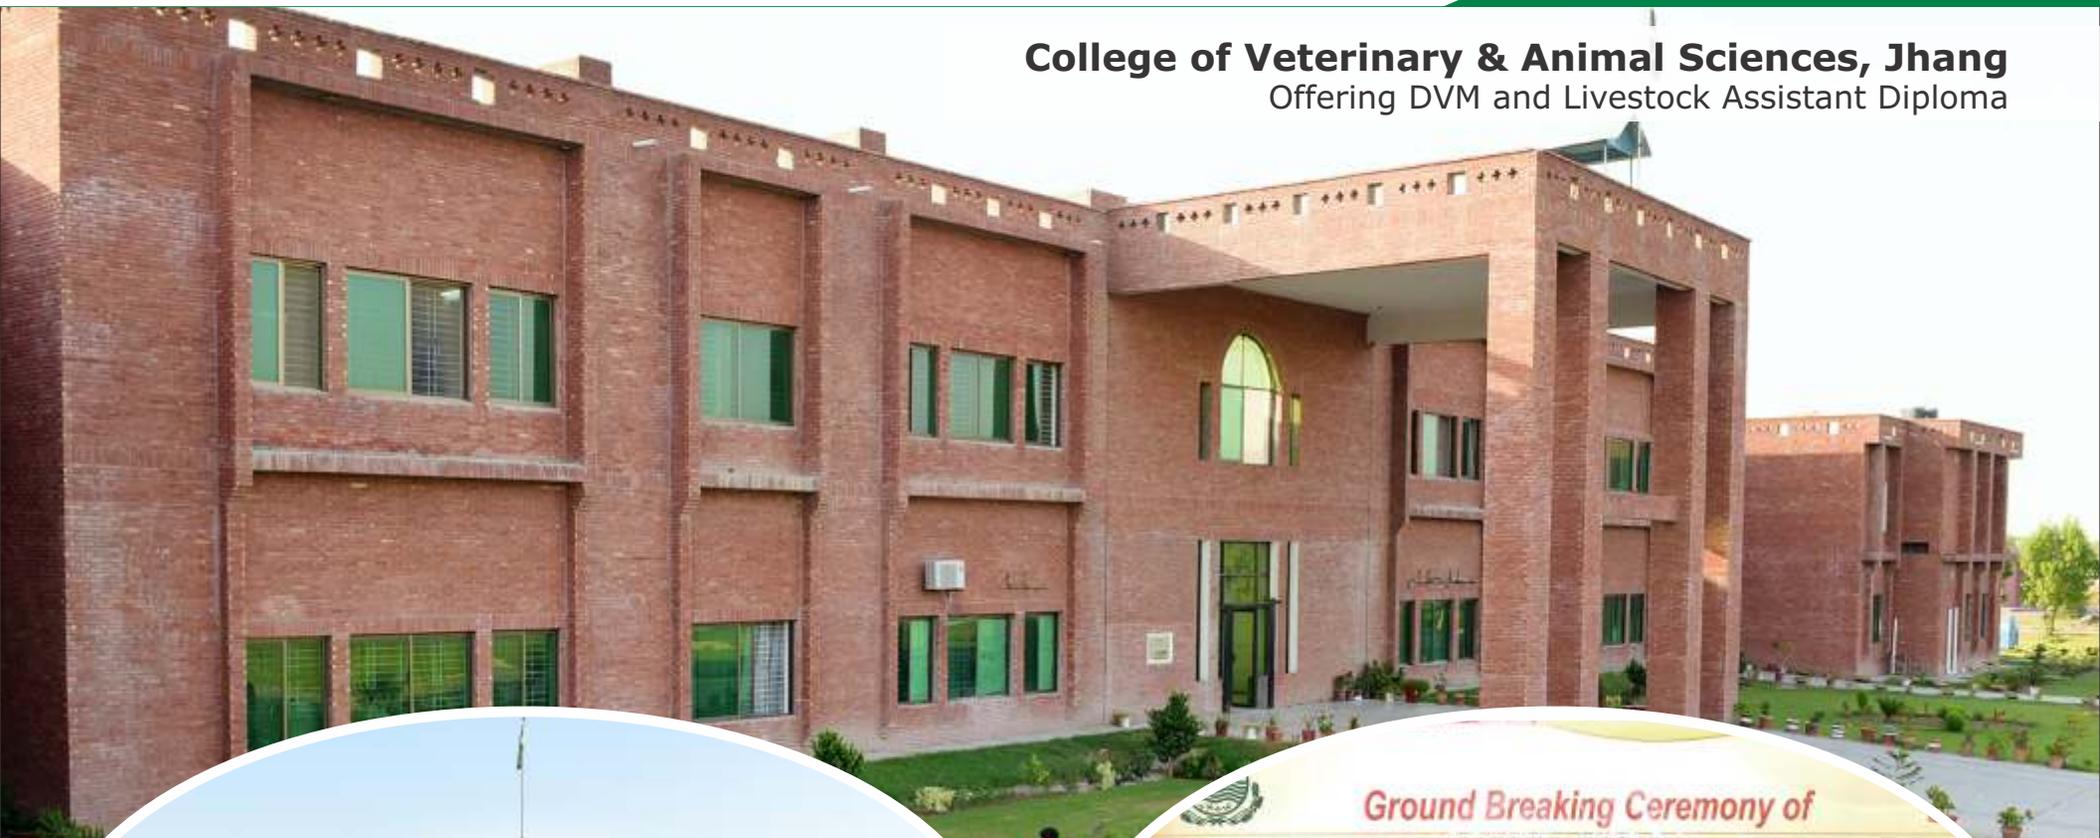

Institute of Biochemistry & Biotechnology (IBBT)

Bringing revolution in Livestock as well as medical fields
by world class research work

Institute of Pharmaceutical Sciences (IPS)

Providing excellence in pharmacy education

College of Veterinary & Animal Sciences, Jhang
Offering DVM and Livestock Assistant Diploma

Para-Veterinary Institute, Layyah
Offering Livestock Assistant Diploma

College of Veterinary & Animal Sciences, Narowal
Offering DVM and Livestock Assistant Diploma

**FACULTY OF
ANIMAL PRODUCTION
& TECHNOLOGY**

ENSURING
MATCHLESS
PRODUCTION
WITH QUALITY

FAPT is dedicated to provide excellence in teaching, research and outreach in modern veterinary and agriculture studies

The Faculty is committed to strengthen Livestock Sector through appropriate human resource development and knowledge generation for increased availability of food from animal origin. The goal is to create a learning community in which students and faculty can engage in the pursuit of knowledge across and between a broad range of disciplines in animal sciences.

Departments:

- Animal Nutrition
- Livestock Production
- Poultry Production
- Meat Science and Technology
- Dairy Technology
- Leather and Fiber Technology

Degree Programs Under-Graduate

- B.S. (Hons.) Dairy Technology
- B.S. (Hons.) Poultry Sciences

Postgraduate (MPhil/PhD)

- Animal Nutrition
- Animal Breeding & Genetics
- Dairy Technology
- Livestock Management
- Poultry Production
- Genetics
- Meat Science and Technology
- Livestock Production

FACULTY OF FISHERIES & WILDLIFE

PRESERVING THE
NATURE'S BEAUTY

Sustainability of aquatic and wild resources is vital for our future. FF&W has field-focused learning and hands on training environment for their promotion and development at present and in future

Departments:

- Fisheries & Aquaculture
- Wildlife & Ecology

**Degree Programs
Under-Graduate**

- B.S (Hons) Zoology

M.Sc. (Two Years)

- Zoology
- Botany

**Postgraduate
(MPhil/PhD)**

- Zoology
- Wildlife and Ecology
- Fisheries and Aquaculture

FACULTY OF LIFE SCIENCES & BUSINESS MANAGEMENT

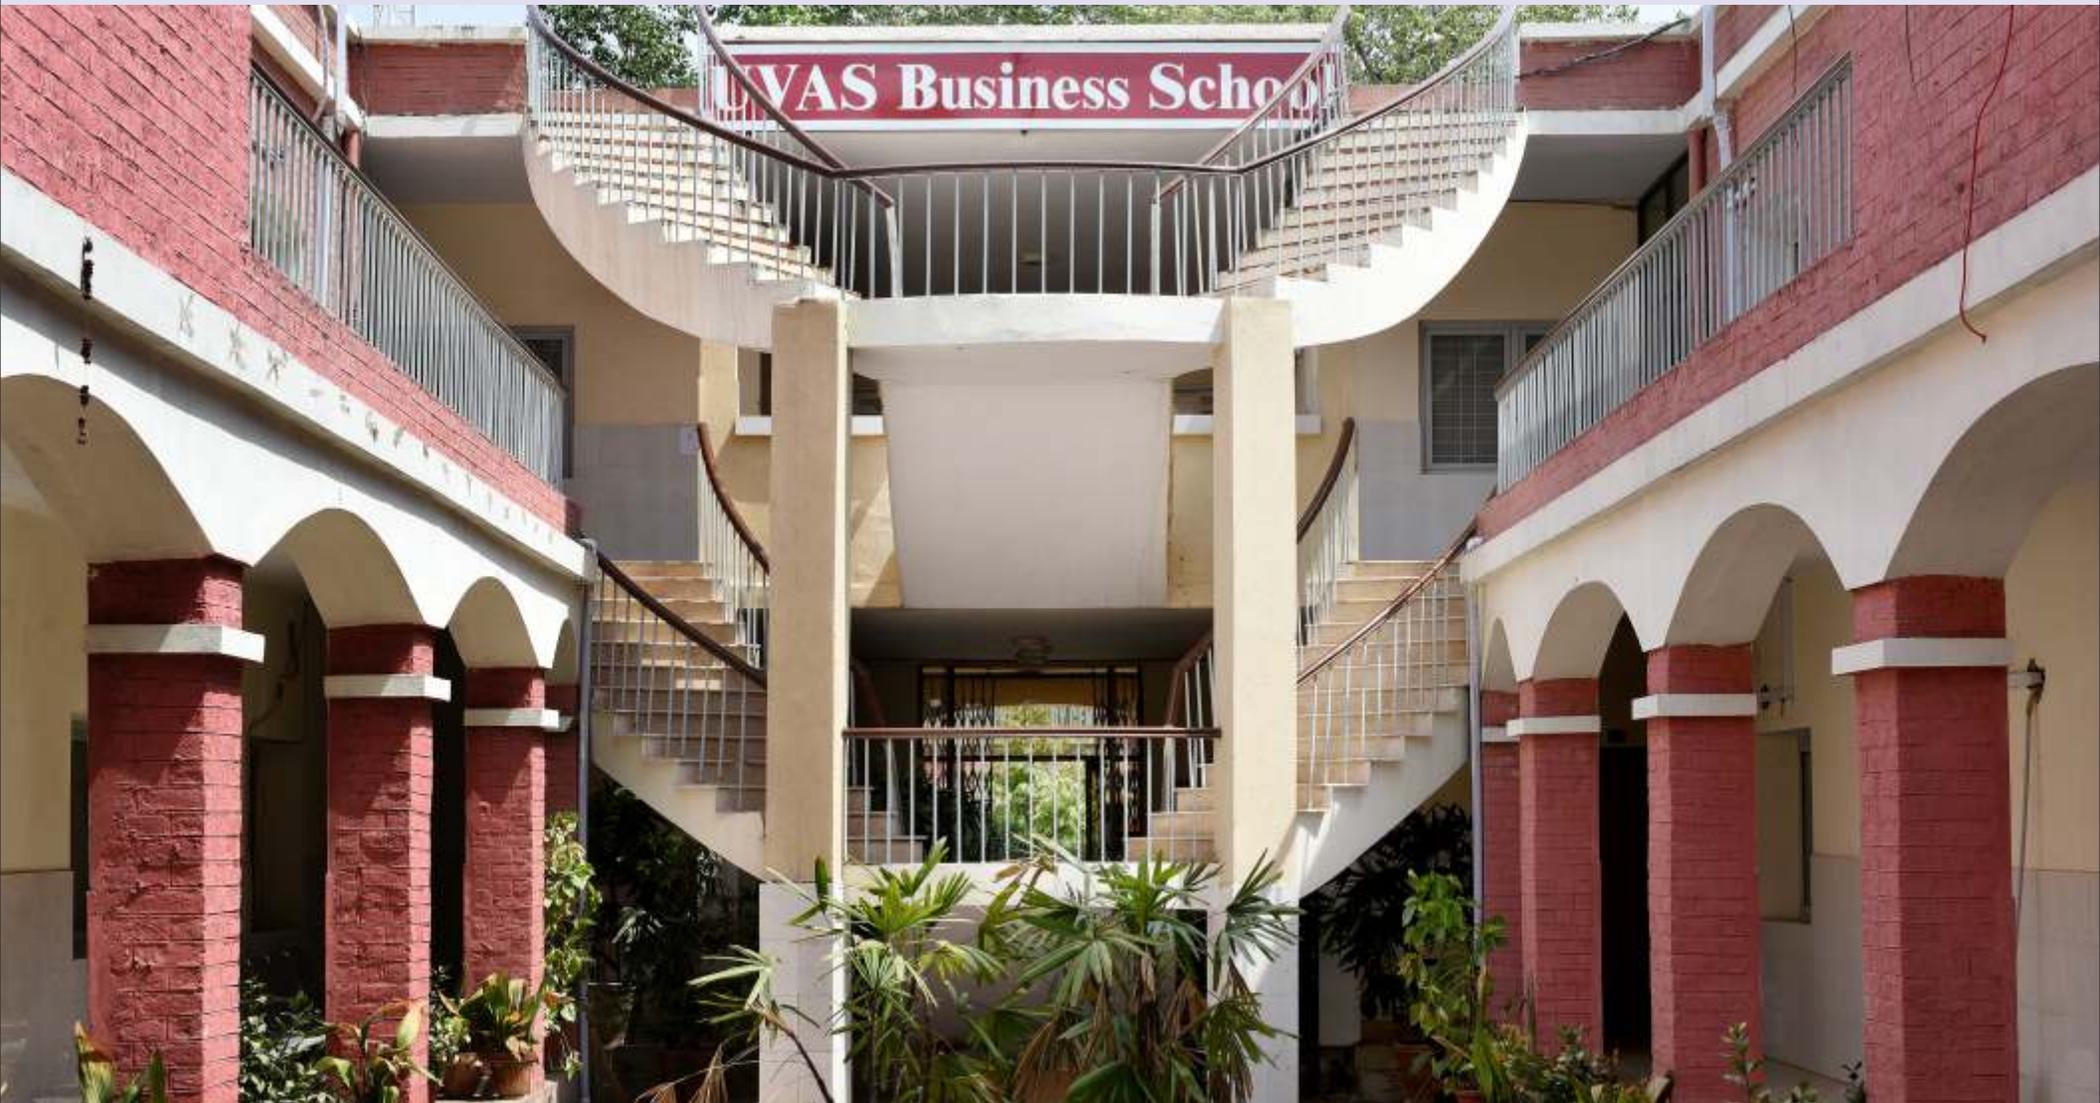

Faculty of Life Sciences Business Management

UVAS Business School

PRODUCING
PROFESSIONALS
TO LEAD

UVAS Business School, at FLSBM, envisions to be a leading business school of Pakistan catering the needs of general businesses and specifically targeting life sciences businesses

At UVAS Business School, we strive hard to provide educational excellence to the students in the field of business administration with a niche of life sciences business practices. Our values include dedicated teaching, maximizing industry exposure and producing quality research.
